2. Approve the second reading and adopt Ordinance No. 2022-002, an Ordinance of the City Council of the City of Citrus Heights Adopting a Map Describing Five Council Districts Pursuant to California Elections Code Sections 21600-21609 and Amending Article II of Chapter 2 of the Citrus Heights Municipal Code.

Fiscal Impact

There is no fiscal impact associated with this public hearing.

Background and Analysis

Each city with district-based elections is required to update (“redistrict”) the district boundaries every ten years, following the receipt of updated population data from each federal decennial census. The City is required to redistrict the district boundaries prior to the next election in November 2022. Although the City recently transitioned to district-based elections in 2019, the boundaries are based on the 2010 federal census, which means the City must now update the boundaries through the redistricting process based on the 2020 federal census.

This City Council meeting is the fourth public hearing for the redistricting process with a proposed district boundary map and an opportunity for the public to provide input on the content of the proposed map and proposed ordinance.

On February 10, 2022, the City Council held its first of four Public Hearings without maps to receive input from the public regarding district boundaries for Council Members. At the February 10, 2022 hearing the City's demographer, NCD, provided a presentation on the overall population changes within the City according to the 2020 federal census data, and an overview of the legal requirements under the FAIR MAPS Act that must be considered when drawing district boundaries.

On February 24, 2022, the City Council held its second of four Public Hearings with a draft map to receive input from the public regarding district boundaries for Council Members.

On March 3, 2022, City staff held a Community Workshop and the public was provided an opportunity to prepare and submit proposed maps for the City Council's consideration. A total of five community members attended the workshop and discussions were held concerning the current Council districts and the 2020 census data. All attendees expressed support in maintaining the current Council District Map.

On March 10, 2022, the City Council held its third of four Public Hearings with a draft map to receive input from the public regarding district boundaries, and the proposed ordinance. City Council unanimously voted to introduce the ordinance.

Proposed District Boundary Map for Consideration

The City's demographer has considered all of the public input received thus far, including public testimony from the first and second Public Hearings, along with the most recent 2020 census population data. NDC has proposed one draft district boundary map that reflects the current district lines adopted on June 27, 2019, which meets the legal requirements under the FAIR MAPS Act. During this public hearing the City's demographer will provide a presentation, and members of the public will have an opportunity to provide input regarding the draft district boundary map.

Criteria for Drawing District Maps

In accordance with the Fair and Inclusive Redistricting for Municipalities and Political Subdivisions ("FAIR MAPS") Act, the City Council shall draw and adopt boundaries using the following criteria in the order of priority (Elections Code Section 21601(b),(c)):

1. Comply with the federal requirements of equal population and the Federal Voting Rights Act (FVRA);
2. Geographically contiguous, to the extent practicable. A district is not contiguous if it includes areas that: (a) meet only at the point of adjoining corners, or (b) are separated by water and not connected by a bridge;
3. Geographic integrity of any local neighborhood or local "community of interest" (socio-economic geographic areas that should be kept together) shall be respected in a manner that minimizes its division;

4. Boundaries should be easily identifiable and understandable by residents. To the extent practicable, council districts shall be bounded by natural and artificial barriers, by streets, or by the boundaries of the City;
5. Districts shall be geographically compact in a manner that nearby areas of population are not bypassed in favor of more distant populations, to the extent practicable; and
6. Districts must not be adopted for the purpose of favoring or discriminating against a political party.
